NEWS & UPCOMING EVENTS | NOVEMBER 2022

GIVING TUESDAY

NOVEMBER 29TH 2022

A roof over your head. A bed to call your own. A feeling of safety and security. Many of us don't have to think twice about these things, but for some of the most vulnerable people in our communities, it's a constant worry.

The United Way of Thunder Bay believes that everyone deserves to find a place to call home.

That's why, for this **Giving Tuesday on November 29th**, the United Way of Thunder Bay is teaming up with Resolute Forest Products to unite against poverty and provide assistance to those experiencing homelessness.

In honour of this day of generosity, our friends at Resolute Forest Products are offering to **match all donations** made to the United Way of Thunder Bay **up to \$15,000!**

Your donations will go to help fund programs and initiatives that help those experiencing homelessness to access the necessities they need; programs like Beyond Our Front Door and THEIR House Outreach, facilitated by Elevate NWO.

Recently, Elevate NWO was able to support 18 individuals living in encampments into their own residences. When Elevate NWO staff came across Flint and his companions, they were blue from cold, and bears had taken whatever food they had. Elevate NWO, along with community partners, was able to help them move into transitional housing and now, Flint himself works at Elevate NWO as a member of the outreach team.

The team connects with 60 contacts a day and provides resources such as food, water, harm reduction supplies and health care.

This is just one example of your dollars at work, and what can be achieved together. Your donations to the United Way of Thunder Bay help those experiencing homelessness by providing them with basic resources, as well as access to social supports and healthcare.

To learn more about how your donations are making a difference, watch Flint's video [here](#).

On Giving Tuesday, every act of generosity counts. Twice.

It's not over yet, and we really think we can take this year's Novemburger to the next level. So make sure you get out there and sample as many Novemburgers as you can before they're gone!
