Thunder Bay

UNITED IN LOCAL LOVE

**We care about
our communities
and we know you do too**

We are still aware that the needs that were here long before the pandemic are still with us today.

Kids are trying to catch up in school.

Seniors either feel or are isolated and left to fend for themselves.

Many are struggling with mental health and don't know where to turn for assistance.

The cost of living keeps rising.

Some of these individuals may be your neighbour, friend or even a family member.

With your support, we can unite together and make a difference.

Our goal is always to make sure no one is left behind.

By putting more kids on track to succeed, we can help all youth in our communities reach their full potential.

By helping people achieve financial independence and stability, they gain a sense of purpose and belonging.

By improving equity, connections, and wellbeing for vulnerable people, our communities can be great for everyone.

United Way is still working hard to ensure a future even brighter than before the pandemic started. But to make it happen, we need our entire community, including you, to:

Unite with us and show your local love

We are so grateful for the acts of kindness that we see — both big and small!
